CAREER OBJECTIVE:

Aspiring AI Engineer with hands-on experience in building RAG-based LLM applications and NLP systems. Passionate about developing scalable AI solutions and solving real-world problems using modern AI frameworks like LangChain and LangGraph.

SKILLS

AI/ML: Machine Learning, Deep Learning, NLP, RAG, LLMs | Tools: LangChain, LangGraph, TensorFlow, Scikit-learn, Ollama (LLaMA 3) | Python | Data: Pandas, NumPy | Backend: Django, Flask, FastAPI, REST APIs | DB: MySQL, SQLite | Core: Feature Engineering, Model Evaluation, Git

EXPERIENCE

AI & Machine Learning Intern

HCL Infotech

Jul 2025 – Aug 2025

- Built a RAG chatbot using LangChain, LangGraph, and LLaMA 3 with intelligent retrieval.
- Optimized performance using NLP and Streamlit-based monitoring.

Web Development Intern

Pro Creative

Jul 2024 – Aug 2024

PROJECTS

RAG-Based AI Chatbot (NeoMind AI)

Jul 2025 – Aug 2025

<https://github.com/visheshsharma1708/chatbot-project-internship-final-project->

- Built a RAG-based chatbot using LangChain, LangGraph, and LLaMA 3 with intelligent retrieval and Streamlit-based real-time interaction.

.Resume Analyzer (NLP Project)

<https://github.com/visheshsharma1708/Resume-Analyzer>

Jan 2026 – Present

- Developed a resume analysis API using TF-IDF for skill matching, keyword extraction, and recommendation system.

Restaurant Name & Menu Generator (LLM App)

Jul 2025 – Aug 2025

<https://github.com/visheshsharma1708/resturantnameandmenugenration>

EDUCATION

B.Tech (AI & DS), Rajasthan Technical University (2023–2027) | CGPA: 8.68

Class 12 (RBSE), 2023 | 90%

CERTIFICATIONS: ISRO – AI/ML for Geodata Analysis | MongoDB – Introduction to MongoDB
